Review for Young Cho

I moved practices 1.5 years ago and have been very happy with that choice. Dr. Cho and his team provide excellent care and customer service. After my check-up, I needed a filling. Dr. Cho was able to do it right then without me having to come back in for a separate appointment.

Review for Crystal Smith

The office hours work well with me while many dentists nowadays require me to take leave from work. The doctor was very professional and the dental hygienist was very informative and went over all of my teeth sparkling clean.

Review for Young Cho

I broke a crown at dinner and Dr. Cho and his staff were able to see me the next morning, make an assessment, polish the sharp, jagged edges of the remaining, and give me an appointment as early as one more day to do a preparation for a replacement as early as 24 hours after that.

Review for Young Cho

I was so happy that my first visit to Opitz Family Dental was awesome! Dr. Cho and his assistant were very courteous, professional, and made me feel totally relaxed. Especially, since I am always anxious and stressed whenever I go to the dentist for any cleaning or other or ocedure. The front desk staff was also kind and the overall atmosphere pleasant. I look forward to my follow up appointment and future visits , which is a first in over 30 years that I have been going to the dentist.

The receptionist in a pink scrub greeted me with a welcoming smile and greeting which was pleasant and courteous. The hygienist is awesome! Provided me with a thorough teeth cleaning with skill and professionalism, genuinely concerned for my comfort. I have been at this location for about 10 years, and I have been seen by at least 4 different doctors. I never get a notice when a dentist is leaving or a new one comes aboard. I just get to the office and a different dentist sees me. I should have moved on after the second dentist change but I am a creature of habit. It must be the friendly smile and the awesome hygienists that keep me coming back. Definitely not the Dentists.

After my family had been driving 15 - 25 miles for 25 years to see Dr. Coleman, when Dr. Cho bought this practice, I was prepared to be disappointed. But Dr. Cho immediately impressed me as honest, knowledgeable, skillful. I say honest because unlike my 2 attempts to find a dentist closer to my home, Dr. Cho never tried to upsell treatments and has worked with me on every concern. His staff is likewise caring, skillful and well trained.

Cleaning was excellent but some of the comments from the woman who cleaned my teeth were, in my opinion, condenscending and insensitive. I also felt like I was being preached to about my teeth. This is not what I expect during a dental visit. Offering advice, options and professional opinions are expected but ultimately, I am responsible for decisions about my dental care. Comments that sound like manipulativr, designed to evoke shame or that project the idea that someone, other than me, knows what is best for me, are not okay. I will visit again, my teeth were well cleaned and maybe I was having an off week. If I am met with similar behavior, I will call attention to it.

There's a lot of caring and you can feel the sincere desire of Dr. Young and his Dental Assistant, Nicole, to make sure all of your concerns are taken care of and you receive only the best treatment during each visit. In my recent visit I receive two crowns for my implants and Dr. Young took much care and attention to make sure the crowns fit perfectly before permanently attaching. Not only did I receive outstanding dental care, but I learned a great deal during my

Have been going to Opitz Family Dental for a number of years now and I have never found another dental facility that treats you as if you are their only customer. They are a practice that truly caters to knowing you as an individual, understanding and exceeding your needs, and growing with you instead of losing you along the way as some practices do while expanding. I have never had a problem getting in for emergencies such as a cracked filling I experienced while on an out of town trip, and the front desk staff has always been accommodating for any of my schedule changes needed. Great place, and I am actually glad for the tooth problem I experienced that first brought me here as I've found my long term dentist!

Our dental hygienist Crystal continues to be amazing! She is so good with our daughter, Allison & was very supportive, patient and nice while we dealt with a very wiggly tooth. She is the main reason that I have given four stars as a review. This was our first visit with Dr. Choo and while on one hand he was helpful while waiting to hear if we had decided to pull a loose tooth, he was also impatient with how long it

was taking. Hopefully with more visits our opinion will rise - still too new to give a better rating.

The staff, especially the dentist and dental assistant who treated me (but I also really want to include the whole staff), were amazing and provided professional and courteous care. The dentist was exceptional and extremely knowledgeable regarding dentistry. She showed concern and wanted to do as much possible to maintain my dental health. I even had to mention how well I was treated by the dentist and her assistant to my group of golfers today and told them they need to check out this facility if they need dental care. I cannot give this dental office and, especially the dentist, enough accolades for their professional care and treatment and would highly recommend anyone looking for the best in care to make an appointment. I look forward to my next visit!

I could not hear the majority of comments and discussions by the dentist and assistant. I seemed to be frequently abandoned with out notice. When abandoned, the chair was positioned completely vertical. I thought I would get to see the pictures. Crown was the most uncomfortable one ever. I would prefer a more vocal dentist next time.

Although I am not having any problem with my filing, I am having a difficult time with the left side of my lip. It is swollen and I have what appears to be a blister inside my lip.. It is difficult to drink from a glass. I'm not sure what exactly happen to cause this but I must say it is very uncomfortable at the moment.

Dr. Estell is always prompt and only does what is necessary to abate the problem. The customer service is average from all the staff with whom I've interacted. The only negative is sometimes it takes multiple visits for an issue to be fully resolved. For example, I have to return to the office again because my bite is off. I don't believe there has been a time yet, where I walk away and my bite is good.

Shane is the glue of the front office staff, love her! It would be helpful if the hygienists would provide their first name when greeting customers, or have a name tag on. I haven't seen Dr. Coleman in years, not sure why? No one

has mentioned why? I don't even know the name of the dentist who saw me yesterday. She was very matter-of-fact and not very personable. Not a bad thing, just wish customer care was more inviting.

Review for Jennilyn Estell

I have been going to Dr. Coleman for 20 years and do so because of her ability and consideration for me as a patient. In my most recent visit I was treated by Dr. Estell who likewise impressed me with her skill and attitude. She replaced an old broken crown. The form and finish of the new crown provided total relief from pain from cheek biting with the old crown. She is a good fit on the team at Opitz Family Dental.

Review for Jennilyn Estell

This was the first remedial visit in many years and my first review. I found the support staff to be unprepared and untrained. A sub was handling the "pre-op" phase. Wait time was longer than expected. I assume the dentist herself was very competent and she accomplished the mission I hope but she needs to work a bit on her "bedside manner" as she was a little rough. My wife had a similar experience with her during a tooth extraction which didn't go smoothly. In summary, I've been a patient of Dr. Coleman's office for about 9 years and have been mostly satisfied but having experienced the frequent change of staff over the last few years I'm not sure I would return.

It's been two years since I've seen a dentist because of a past experience. When I entered Dr. Coleman office I was immediately greeted by her friendly staff. Once, I completed my paperwork I was the dental hygienist walked me through everything that she was doing and make valuable recommendations to help me keep the teeth I have. Once I meet with the Dr. Coleman, she provided a thorough analysis of my dental situation and recommendations. I can go on and on about the staff and the facility but I truly recommend that you make an appointment and experience it for yourself.

As a new patient, I found the staff to be professional and courteous. My appointment was on time. The dentist was gentle and knowledgeable. Most importantly, they developed a plan that did not include replacing every crown in my mouth so I felt confident that they were not out to simply make money but to provide the care that I needed as a patient. I immediately set up appointments for my entire family.

I received very excellent care from Dr. Estelle and the two assistants. They had a difficult job of fitting me for an impression for a crown over an implant, and I have a hypersensitive gag reflex. The best in the Woodbridge, VA area (and I have been to several)! Appointment at 9 AM? You're in the chair at 9 AM. Receptionists are friendly and very helpful in explaining costs and getting you checked in and out quickly. My dentist was very well qualified (IMHO) and knowledgeable and was always concerned with my comfort level during the operation. I felt no pain or suffering during my operation for crowns. Although I have high blood pressure she remained patient which is more than outstanding. Overall, a great place to go if you need dental care. I have already recommended several friends.

Review for Crystal Smith

The service was fine, but the business part was not. When I called to make the appt, I specifically asked for service fees because I am paying out of pocket without insurance. The receptionist quoted \$160 for xray, exam, and cleaning. When I checked out, the bill was \$208, and the explanation was "oh, we did another xray and that was additional cost." Well that wasn't discussed beforetime and not part of the up-front price. That turned what was otherwise a pleasant visit into a unhappy departure. I have a repair scheduled and I will be sure to question any procedures proposed or done. This is the problem with health care in general - the attitude is we'll just bill insurance and they will cover most or all of it. We'll see how the repair goes, and I surely don't want and surprises at the checkout.

30 minute wait time. The office will charge you quick for being late but show no accountability for being late themselves. A little bit of communication goes a long way when things are running behind. Shows respectacular for the patient's time. Review for Monique Perry

Everyone was friendly and professional. My experience was a good one. The only thing that troubled me and this has happened in other doctor's offices, was the fact that the computers seem as important as the patient.

But there was sufficient face to face time to make me feel well taken care of. I would recommend Dr. Coleman to all.

was awesome, as i dislike the numbing process, but the doc did a wonderful job and the assistant has totally improved as before i cringed when she would put the contraption in my mouth for the x-rays, oh my goodness!!! it was wonderful this time; i mean it is still uncomfortable but it i did not cringe or had a fear on my face. so that part was the best. thanks for being concerned about a coward lol

Thank you so much. I had the teeth refilled from a previous dentist and walked out and helped a friend move furniture. The replacements were perfect and felt just like the old ones. My mouth guard didn't have to get a new mouth guard, it fit like it always has. That was a lot of work and took many hours in the chair the first time and it was completed in about 1.5 hours. WOW!! As usual, I was pleased and the staff was wonderful. Thank you for being the best dentists I have ever had and so very kind.

Review for Karina Vera-Lopez

I chipped my front tooth on Saturday, 10/19/2013. I called Dr. Coleman's office the following Monday to make an appointment. Although there was no pain associated with the chipped tooth, Dr. Coleman's staff treated my appointment as they would an emergency. I was scheduled to see Dr. Vera the next day at 9:40 am, and when an opening in the schedule at 9:00 am became available, they asked me to come in then so that I might not only be evaluated but treated as well. Dr. Vera was EXCELLENT! The cap she crafted for the end of my front tooth looks and feels better than the original. I will continue to see Dr. Vera for all future dental appointments and follow her recommendations and treatment plans to the letter.

Review for Marilyn Coleman

Dr. Coleman was referred to me and highly recommended by my sister. I went in to see her for a broken tooth that had become infected. Needless to say I was in a lot of pain. Dr. Coleman and her staff were very gentle and understanding and pulled my tooth on the spot. She talked me through every step and let me know what to expect. I have had teeth pulled before and was not looking forward to yet another one. Especially since the previous dentist was very rough with the extraction. Dr. Coleman was gentle and several times throughout the process, asked if I was ok and made sure I was as comfortable as I could be considering the work that was being done. As I was about to leave, I told Dr. Coleman that she came highly recommended by my sister, and that I see why. I will, and already have recommended Dr. Coleman. Thank you again for the great experience! I wish all dentists were as gentle and caring as Dr. Coleman.

Review for Marilyn Coleman

Dr. Coleman is pleasantly talented with her dentistry skills. Foremost is her ability to maintain focus on the condition of the patient, while artfully using the tools of her trade. I never felt a needle, and never felt a drill. I heard the drill, but I was not sure which side of my mouth she was working on. With regular pauses in her work she asked me for affirmation that I was ok, and that I was comfortable. When I left the chair I did not feel any numbness. An hour later I ate dinner and felt no side effects. I could not have asked for any better results!

I've been going to Dr. Coleman's office for about 5 years now. I've always had a great experience until this most recent visit. The assistant was good (i've had her before), but the new dentist that was filling my cavity was very rough with the tools and her hands and I left with a very sore mouth and jaw. Again, this is not typical of this dental office as I have always had great experiences with everyone else in the past. I would still recommend going here, just don't get an appointment with the new (possibly Indian??) doctor.

I was getting cavities filled. The dentist was numbing the wrong side. She blamed it on the computer when I questioned it and never apologized. That scares me. What if I had not caught it. I suggest that the dentist try to make sure the patient knows where the cavity is when the dentist finds it and then verify everything before starting to fill it. When I went in for my cleaning there was a black guy who was interviewing. That was my best experience ever. He made sure I understood what he was doing before he started doing something. Stop to answer all my questions and was very nice and helpful. I would love to work with him again.

Dr. Coleman is cheery and is totally professional. She clearly gave choices for the best way to get two worn-down teeth in order. She is always concerned with any abnormalities in teeth or gums and tells me of a problem or potential problem with dental care needs until I act on her advice or hold it off for a while, etc. Dr. Coleman doesn't do "in your face" type approaches.

This tooth filling should have been a simple fix, however, the doctor, I believe should have known exactly how much Novicane I needed. As a patient you put your complete faith and trust in that person. When it came time to drill my cavity out, I felt it on my nerve. As a result, the Novicane had to be administered 3 x adding to my anxiety. I also had to hold the suction cup and administer my own saliva extraction which should have been done by the doctor or her assistant. My trust in this dentist to say the least is not very good as a result of this experience.

I think there is too much time wasted sitting in the chair waiting to be seen. Also, the two assistants were not on the same page. One was saying one thing about the teeth in question, and the other said something else. The dentist was taking care of too many patients at one time. The fact that one has to have 1/2 of the cost paid up front is financially stressful without knowing this before the visit. This was the worst service I have ever received in a dental office.

As most always, it was a pleasant visit. This was the first time I had Lori as my hygieness; she as the others have always been professional and most thorough. Upon arriving the receptionist gave me a four page form and asked if I could fill out the information that has been on file for a dozen years because you are automating your records. I completed it partially, but not the information that had not changed -- why is this burden being placed on your patients? thanks, Mike

I went in to have a chip in my tooth filled by Dr. Han. This was the same front tooth that Dr. Coleman took care of in 2007. Dr. Han was courteous yet he seemed to be satisfied with the fact that my tooth still had rough edges when the procedure was complete. He did not appear to have noticed this, and I helped guide him until the tooth was smooth. Since having this done on Friday 9/9/11, I have sensitivity in that tooth to air and touch. Not sure if this is supposed to be evident as I don't remember this in 2007. I also asked about having a chip in the lower front tooth taken care of, but he advised against it. I believe this is a new chip and ocured when the top tooth was chipped. I am not fully confident in his decision, but he is the professional. Please guide me in knowing if my experience typical. As usual Dr Hahn was very good and explained every detail of the procedure. His assistant was also very knowledgable and provided excellent care. However, there were a few problems. The assistant was very 'heavy handed.' She seemed a bit rushed and did not take it easy at all. She pulled and tugged without regard for my comfort level. Additionally, I suggest the Doctors take a hard look at the policy regarding expectation of payment. I feel that if the service will result in a substantial payment (e.g. over \$100), they should tell you before you get the work done. Some people cannot be expected to pay without at least knowing It puts a damper on the otherwise outstanding service when you're hit with a huge bill before you leave the place... This office has a poor accounting staff. The people planning your treatment has no knowledge of insurance plans and are very arrogant when talking to patients. This office is in jepordy of losing patients because of inexperienced, uncaring, immature, unintelligent accounting personnel. Dr. Coleman would have been better off remaining a small practice instead of expanding. I will no longer enjoy the kind gentle services of Dr. Coleman due to her office staff. It's bad enough to go to the dentist not to mention the cost. The experience of being charged properly and treated disrespectfully is horrible. I wanted to continue seeing Dr. Coleman and her dental team, but not at the cost of humiliation by her billing staff while in the dental chair receiving services, or the confusion afterward. I have also received treatments for fillings on three occasions and my daughter, who also was treated thru the practice, had one filling (as well as the same filling repaired). We both were very unsatisfied with these treatments. We both were treated by someone other than Dr. Coleman, we still don't know WHO performed the treatment, since only Dr. Coleman's name was on the practice at the time. I even came home and checked online to see if someone other than a DDS or DMD could perform such treatments--I was that concerned with the care. This will be my last visit to the practice--I needed a cleaning (something I had been happy with from the practice) prior to moving. I would not recommend the practice to a friend.

Let me start by saying that I am not afraid of dentist visits. This was my first visit to Dr. Coleman's practice and I was pleasantly surprised. I arrived at my appointment a bit

early. The ladies at the front were very friendly and helpful in getting my initial paperwork done. The X-ray technician did a great job with trying to make me comfortable and my Dr. and hygienist had a gentle touch and friendly personality.

I'm really disappointed. First of all, when the dentists checked me he said my case was boring because I have no cavities, therefore they can't get business from me. Then I was expecting to receive a cleaning that didn't happen and no one told me ahead of time, not even when I spoke on the phone with the receptionist, that this dental practice does not do cleanings on the same day they do x-rays and exams. I was in a haste to schedule an appointment for the cleaning. I really got frustrated and left the practice. They really made me waste my time. I will never go back neither recommend a friend to visit this dentist practice.

I give Dr. Coleman's staff and associates the highest marks available. By the way, I am a first time patient and from the time I scheduled my initial appointment and after my first visit I know that I will be a patient of Dr. Coleman's office for a long time to come. The atmosphere is friendly and professional. The scheduling of feature appoints are explained so that you can make the appointment at best time that works for you. Also, equipment appears to be state-of-the-art, and producedures are fully explained so that you understand and there are no surprises. In addition, dental coverage for various procedures are also fully explained and you are given options as to how to pay for neded services, i.e., at one time or a payment schedule, which really works with my budget. Thank you Dr. Coleman, Associates and staff. You come highly recommended, I understand why and I do not feel it is premature to say that I will be a patient for a long time to come. :)
